

The answer to your A/R can be as easy as getting your own QR.

Billing is the last thing you want to think about in the moment of care. CareCredit offers a financing experience that helps make payment easy. With the CareCredit health and animal care credit card, your practice gets a custom link and QR code your clients can use to see if they prequalify and apply anytime, anywhere.

If approved, they can pay at the time of service at every visit and you get paid in two business days, freeing you up to focus on care. Isn't that why you got into this profession in the first place?

**Scan to learn about the
custom link and QR code.**

Here's what happens when you start accepting CareCredit:

1

Help cost from getting in the way of care.

Getting through cost concerns can be a challenge. CareCredit can help with an easy way for clients to pay for all types of care so everyone can focus on what's best for the horse.

2

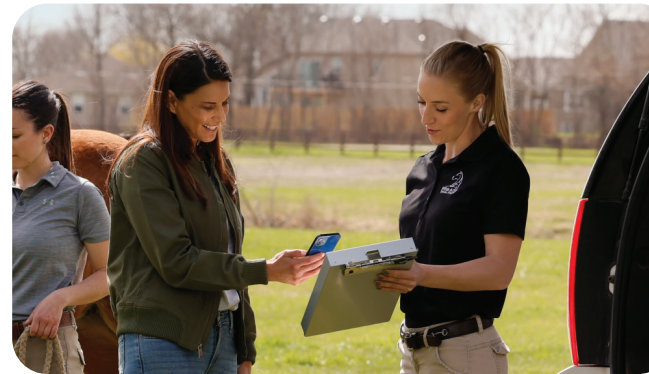

Say goodbye to outstanding A/R.

With CareCredit, you get paid in two business days so there's no need to chase down payments. Cash flow is king—and stays that way.

3

Accept payment anywhere you work.

CareCredit providers get a custom link and QR code that clients can click or scan with their smart device to make a payment anytime, wherever it's needed.

4

Experience fewer financial headaches.

If clients hesitate to pay, it can affect your practice's financial health. With CareCredit, clients have a way to pay at the time of service at every visit.

5

Get paid what you deserve.

CareCredit's flexible financing options give clients a way to pay over time in monthly payments that help fit their budget. So there's no need to discount or waive fees.
