

Boost Your Skills

The Front Office Team wants to help patients get healthy. Great financial conversations happen when everyone is knowledgeable, confident and comfortable with financial conversations.

Help reduce apprehension, confusion and uneasiness for front office teams and patients - with these three steps:

Be knowledgeable

▶ about the CareCredit credit card.

- Revolving credit line for health and wellness expenses
- Promotional financing options available
- Can be used for the family's ongoing care at more than 266K locations

Be confident

▶ letting patients know they can apply for the CareCredit credit card.

Just takes 2 easy steps

- 1 Proactively offer CareCredit to all patients
- 2 Let patients know they can privately scan your QR code to see if they prequalify, apply and pay with CareCredit

Be comfortable

▶ accepting CareCredit from current cardholders.

And for patients who already have a CareCredit credit card, it's easy to process a transaction

- Simply log in to the provider center
- Click on transactions in the top navigation bar
- Select "process transactions"
